## Wiping and cleaning

The easy choice for the best result

# Helping you to choose the right product

Whether you run a restaurant kitchen or an industrial production line, we understand that every second matters. Tork wipes, cloths and dispensers are designed to get the job done with maximum efficiency – keeping your business running smoothly.

## What works best for your business?

We develop our product ranges to match the different needs of our customers.

**Find the right product for your workplace based on these three simple questions:**

**What task do you need to do?**

Do you need a wiper or cloth for dry or wet wiping, for cleaning to remove oil and grease, or for polishing?

**What type of working space or workstation do you use?**

Are you at a workstation where you and others need equal access to a dispenser, or do you need to move wipes around to carry out different tasks?

**How often does this task get done, and by how many people at once?**

Do several people use wipers or cloths during the day, or does one person occasionally need to use them?

## What we offer

We've got a comprehensive range of specialist wipes and cloths, each designed to perform specific tasks. Add one of our dispensers to create an efficient system that controls consumption and cost.

Task		
<b>Wiping</b> Mopping up spills, soaking up liquids and picking up dirt and dust with paper.	<b>Cleaning</b> Removing dirt and stains from surfaces, machines or tools with cloths that are dry or used together with water, solvents or detergents.	<b>Polishing</b> Creating a protected and shiny surface with the help of a cloth that applies polish onto the surface and is then rubbed to obtain a good finish.
